Mississippi State University’s (MSU) College of Veterinary Medicine currently uses ExamSoft as their exam delivery system for Phase I students in the Doctor of Veterinary Medicine program. We are seeking a vendor that will either continue to support the current system or a vendor who will match the needed features and integration(s) of the current system, migrate the existing data to the new system, and to support or replace the existing exam delivery system. We would like this system to be hosted on the vendor’s server/cloud. See the list above in grid for immediate needs. We request the opportunity to adjust quantity annually based student numbers and need.

MSU is seeking a three-year (3) contract and would like the option to renew these services on an annual basis for an additional two (2) one-year periods. Please either provide firm pricing for the annual renewal or explain how annual price will be determined.
